

CompoundTek to exhibit at OFC 2020, booth #2826 and co-host EPDA session as part of Lumerical's Online Technology Day

CompoundTek continues its commitment to an OFC 2020 showcase of the company's portfolio of latest technologies in silicon photonics fabrication. Its expanded capabilities are poised to accelerate commercialisation of niche technologies for telecommunication, data centre, bio-medical diagnostics, smart sensor, artificial intelligence, quantum optical computing, and automotive applications.

Now exhibiting at a new booth location, #2826 (from previously #6206), its senior team of experts will be on hand to provide insights and discuss partnership opportunities with the company's:

- Expanded technical capabilities with the formation of an indigenous Si photonics testing hub. The first Si photonics Optical/RF/DC tester using Formfactor prober + Keysight system.
- CompoundTek's growing EPDA ecosystem, including Lumerical CML, Mentor Tanner PDK, Luceda PDK and Cadence PDK.
- Cutting-edge capabilities in silicon photonics fabrication with fast turn-around time designed to address capacity and industry process technology gaps.

Extending the demo online for a more inclusive experience, a tailored session with partner Lumerical has been organised as part of the "Lumerical's Online Tech Day". CompoundTek and Lumerical will provide further insights into their collaboration together and with other partners, focusing on the Electronic Photonic Design Automation solution. This particular showcase will be held on Friday, March 13th at 5:30 pm-6:30 pm PDT. Key details on the event will be made available soon at <https://www.lumerical.com/learn/events/>

Furthering the momentum of its 2019 growth, CompoundTek kicked off 2020 with "design-wins" from 19 commercial customers (seven of which are organisations of over USD\$1 billion in revenue) and > 19 research Institutes/Universities. Today, the company's technological strength is peer-recognised as comparable and often superior to research institutes and other commercial foundries, offering a global marketplace differentiated solutions in tandem with customers' evolving needs.

See you at OFC 2020, booth #2826. We look forward to welcoming you.
